

REMARKS

The specification has been amended to correct apparent typographical errors and/or to improve its presentation. In addition, the claims have been amended in order to more particularly point out and distinctly claim the subject matter to which the applicants regard as their invention. The above amendments are also submitted to place the claims in substantially the same condition as the claims as amended under Article 34 in the international application. A translation of the Article 34 Amendment is enclosed.

The above amendments are believed to place the specification and claims in proper condition for examination. Early and favorable action is awaited.
